Reviews

It is just one of the best ebooks. I was able to comprehend everything out of this composed PDF. It is extremely difficult to leave it before concluding, once you begin to read the book.
(Ocie Hintz)

THE WORKS OF ARCHIMEDES

To download **The Works of Archimedes** PDF, you should refer to the hyperlink under and save the ebook or get access to additional information which might be relevant to THE WORKS OF ARCHIMEDES book.

Cosimo Classics. Paperback. Book Condition: New. This item is printed on demand. Paperback. 516 pages. Dimensions: 8.4in. x 5.5in. x 1.3in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1897 Excerpt: . . . Proposition 3. Given two unequal magnitudes and a circle, it is possible to inscribe a polygon in the circle and to describe another about it so that the side of the circumscribed polygon may have to the side of the inscribed polygon a ratio less than that of the greater magnitude to the less. Let A, B represent the given magnitudes, A being the greater. Find Prop. 2 two straight lines F, KL, of which F is the greater, such that $F : KLA : B$ (1). Draw LM perpendicular to LK and of such length that KMF . In the given circle let CE, DG be two diameters at right angles. Then, bisecting the angle DOC, bisecting the half again, and so on, we shall arrive ultimately at an angle (as NOG) less than twice the angle LKM. Join NG, which (by the construction) will be the side of a regular polygon inscribed in the circle. Let OP be the radius of the circle bisecting the angle NOG (and therefore bisecting NC at right angles, in H, say), and let the tangent at P meet OG, ON produced in S, T respectively. Now, since, $LCON = 2Z. LKM$, $\therefore HOC. LKM$, and the angles at H, L are right; therefore $MK : LK = OC : OH = OP : OH$. Hence $ST : CN = MK : LK = F : LK$; therefore, a fortiori, by (1), $ST : CNA = B$. Thus two polygons are found satisfying the given condition. Proposition 4. Again, given two unequal...
